What's New In?

LabelTasksGO is an easy-to-use application which allows you to design and print labels. It is specifically designed for the retail sector, and offers 5 designs in full colour. As well as the basic barcode, the labels also include price and description information. The bottom of the label gives space for a map pin, allowing you to include an address. Compatibility: LabelTasksGO can be installed onto a Windows PC with Windows XP, Windows Vista and Windows 7 operating system. If you have a Windows 98 or Windows 2000 operating system, you will need a Windows XP or Windows 7 Media. The application can also be installed onto a CD or DVD of your choice. How to use it: To start using LabelTasksGO, first remove the CD or DVD of LabelTasksGO, then insert the disc or run the program from the CD. Launch LabelTasksGO from the desktop, click on the "New" button to design a new label layout, then click on the "Print" button to print the labels. When you've selected all the labels that you want to print, click on the Print button. LabelTasksGO will begin printing the labels. As the labels are printed, the labels can be removed using the supplied barcode-sorting tool. You can save labels to your hard drive and/or label printer using the "Save to disk" button. Click on this button to open the dialog. You can save the labels on your hard drive using the "Save to hard disk" or "Save to disk" options. To save the labels directly to the printer, click on the "Save to printer" button. LabelTasksGO will open the printer driver and will choose the printer and the options for the printer driver. If you are asked to choose a printer driver, LabelTasksGO will default to the one that came with your printer. LabelTasksGO can also be accessed on a mobile device with a mobile phone or tablet device. The application includes a mobile compatible version for all the iPhone, iPad and Android operating systems. This is a free download, and can be installed onto your device using the Apple App store or Android Market. After installing the application, open it by tapping on the icon which will appear on the home screen of your device. Find the "Create Label" option by scrolling down the
